Training of outstallions	300,002	307,333	1,021,000

The preliminary equity ratios are displayed in relation to total risk.

The cost-income-ratio is the ratio between operating income and operating expenses. Operating income includes net interest income, net fee and commission income, net trading income and if positive other operating result and result from discontinued operation. Operating expenses include general administrative expenses and if negative other operating result and result from discontinued operation. Other operating result and result from discontinued operation is displayed net of other taxes, deconsolidation result and valuation result according to IFRS 5.

The ROE before taxes indicates the result before taxes in relation to average equity including non-controlling interest.

The ROE after taxes indicates the result after taxes in relation to average equity including non-controlling interest.

The net interest margin shows the net interest income in relation to total assets.

The NPL ratio indicates the portfolio of non-performing loans in relation to the total exposure of all loans to and receivables from customers.

The leverage ratio indicates the business volume (CCF-weighted off-balance positions plus derivatives add-on, replacement value of derivatives, disallowance of derivative claims and financial volume) in relation to the tier 1 capital (CET1 + AT1).

The net stable funding ratio indicates the available stable funding in relation to the necessary stable funding.

The liquidity coverage ratio (LCR) describes the ratio of highly liquid assets to net outflows over the next 30 days assuming a stress scenario, and thus the ability to cover short-term liquidity outflows.

The loan deposit ratio indicates the total amount of loan accounts, overdraft facilities less syndicated loans in relation to the total amount of savings deposits, demand deposits and fixed term deposits.

The coverage ratio I indicates the coverage ratio of non-performing loans by risk provisions.

The coverage ratio III indicates the coverage ratio of non-performing loans by risk provisions and collaterals.

Staff figures are calculated based on full-time equivalent.
